## SL7 expo Letter of Support

January 10, 2025

To whom it may concern,

Please accept this letter as a voice of support for the SL7expo project.

Since 1974 our shipyard has been engaged in small craft (under 120') design, construction, modifications and repairs.

In that one half century we have noted an increasing lack of skilled and willing applicants in the marine field. Our vessels are built with laminated wood composite, aluminum, and steel. This requires a diversified set of skills that we are acutely dependent on.

For this reason we request, and hope, that you will provide whatever support and resources available to the SL7expo to enable it's encouragement to such a work force, and its contribution to our critically important maritime industry.

Thank You,

John Scarano  
President Scarano Boatbuilding Inc.
